EXPERIENCE

Walmart Labs

Jul/2024 - Present

Software Development Engineer 3 — Java, Spring Boot, Golang, React, Kubernetes

Bangalore, Karnataka

- Designed and implemented a data pipeline service to periodically move data from AzureSQL to BigQuery, reducing query execution time by 30% and accelerating analytics for downstream teams
- Implemented GenAI-powered query generation for data exploration, reducing data dashboard creation time by 40%, significantly optimizing user efficiency and data accessibility
- Developed a Secrets Manager in Golang to securely encrypt and auto-update database credentials, automating secret management for 50+ process IDs and reducing manual effort by 60%
- Provisioned Redis instance and developed a reusable connectivity library in Java powering services with **100K+** unique users, standardizing cache integration across services and reducing latency significantly

Standard Chartered GBS

Jul/2021 - Jul/2024

Software Development Engineer 2 - Full Stack — Java, Python, React, Azure Cloud

Bangalore, Karnataka

- **Led** the modernization and simplification of the technology stack, upgraded code from Java 8 to Java 17 and transitioned to Spring Boot 3, leading to a 30% increase in performance efficiency
- Streamlined software delivery by implementing CI/CD DevOps pipelines and achieved an 80% reduction in deployment errors and a **100%** increase in overall software quality using Jenkins, Kubernetes and Docker

Full Stack Software Engineer — Java, Spring Boot, React

- Developed and launched a multi-lingual digital onboarding platform utilized by over 5,000 global users
- Introduced key features that enhanced the onboarding experience and increased user retention by 30%
- Redesigned PDF generation utility, saving **\$1 million** yearly and cutting turnaround time by **50%**

Policy Bazaar — PB Fintech

Jun/2020 - Aug/2020

ML Intern: Sentiment analysis — Python, Machine Learning

Gurugram, Haryana

- Trained model for sentiment analysis and named entity recognition from chats to generate potential leads
- Strengthened targeting of high-propensity customer segments, resulting in a **70%** increase in efficiency, by implementing a machine learning model to accelerate potential customer outreach

TECHNICAL SKILLS

- **Programming Languages & Frameworks:** Java, Go, Python, C++ , JavaScript, TypeScript, Spring Boot, Spring Data JPA, React, Next.js, JUnit
- **Software Development:** Microservices, Distributed Systems, API Design, Design Patterns, System Design, High-Availability Architecture, Scalable Systems
- **Cloud & DevOps:** Google Cloud, AWS, Kubernetes, Docker, Azure, Jenkins
- **Databases:** Azure SQL, OracleDB, PostgreSQL, Cassandra, MySQL, MongoDB, BigQuery
- **Tools & Other:** Git, Helm, Redis, Kafka, OpenShift, JIRA, Elastic
- **Certifications:** AWS Developer Associate, AWS Cloud Practitioner, Quantum Computing Certification from Indian Institute of Science (IISc)

EDUCATION

Indian Institute of Technology Delhi

July / 2017 - May / 2021

Bachelor of Technology (B.Tech)

New Delhi, India

REWARDS AND ACHIEVEMENTS

2025: Awarded Rs 10,000 Bravo Award at Walmart for impactful work of data-transfer service to BigQuery

2023: Awarded Rs 15,000 for Building Future Ready Workforce at SCB, won Best performing newbie Award

2022: **Finalist speaker** on microservices and micro-frontend at the DevOps India Summit 2022

2021: Secured position in the **top 1%** racers in AWS Deep Racer Reinforcement learning Global championship

2019: Granted \$3000 in Summer internship to develop a Software for DNA sequencing at SciLife Lab, Sweden
